Re: Himco, Inc. County Road 10 Landfill, Elkhart, Indiana

Dear Ms. Swales:

This is in response to the letter dated April 20, 1989, from Norm Niedergang, Chief, Remedial and Enforcement Response Branch. CTS Corporation ("CTS") is extremely concerned that our 18-page response dated December 13, 1988 to the CERCLA Section 104(e) Request for Information was deemed by U.S. E.P.A. to be "inadequate." CTS endeavored to respond fully and completely to that request, as we do with respect to all such Section 104(e) requests that we receive from U.S. E.P.A. It would be helpful if future second requests for information could indicate where inadequacies were found in the first response, in order to assist companies in remedying any such inadequacies.

Our responses to the previous Section 104(e) request covered the time period from 1960 to 1976, as it was our understanding, based on the telephone conversation on December 8, 1988 between yourself and Audrey Van Dyke, Environmental Engineer for CTS, that the Himco County Road 10 Landfill was closed in 1976. It is my understanding that the time period for this second request covers January, 1960 through December, 1977. In my telephone conversation of May 3, 1989, with Victor Franklin, Office of the Regional Counsel, U.S. E.P.A., he confirmed that the period for which information is sought in the April 20, 1989 second request is January, 1960 through December, 1977. The information and documents supplied by CTS herein therefore relate to the period from January, 1960 through December, 1977.

The following are CTS' responses to the Requests that were enclosed with Mr. Niedergang's April 20, 1989 letter:

Request No. 1:

Identify all persons consulted in the preparation of the answers to these Information Requests.

RECEIVED
MAY 15 1989

TECHNICAL SUPPORT
SECTION

Ms. Susan Swales
May 9, 1989
Page 2

Response to Request No. 1:

The following persons were consulted in the preparation of the answers to these Information Requests:

Marvin E. Gobles, Manager, Plant Engineering, CTS
Audrey L. Van Dyke, Environmental Engineer, CTS
James J. Zehendner, Vice President, Material Control,
CTS, Electromechanical Division
Gene Wiswell, Research and Development Manager, CTS,
Electromechanical Division
John J. Brasseur, Environmental Coordinator, CTS,
Electromechanical Division

Request No. 2:

Identify all documents consulted, examined, or referred to in the preparation of the answers to these Requests and provide copies of all such documents.

Response to Request No. 2:

All documents consulted, examined or referred to in the preparation of these answers are identified in the Responses to Requests Nos. 7 and 8, below. Copies of all of these documents are attached hereto as Exhibits A through PPP.

Request No. 3:

If you have reason to believe that there may be persons able to provide a more detailed or complete response to any Information Request or who may be able to provide additional responsive documents, identify such persons.

Response to Request No. 3:

CTS has no reason to believe that there are persons who would be able to provide a more detailed or complete response to any Information Request or who would be able to provide additional responsive documents, unless the owners and operators of Himco Waste-Away Services, Inc. have information or documents in their possession.

Request No. 4:

Describe the types of Company operations and-or processes performed between January 1960 and December 1977.

Ms. Susan Swales
May 9, 1989
Page 3

Response to Request No. 4:

As we previously stated in response to the first Section 104(e) Information Request, the manufacturing processes of CTS' Plastics Plant include plastic injection molding, painting and cleaning of parts. In the injection molding process, hot plastic is injected into a mold to produce plastic parts. The painting process involves the spraying of conductive and/or resistive paints onto laminate material. The painting process also includes milling, which is the mixing of paints. These manufacturing processes have not changed significantly since the 1960 through 1977 time period, except that during that period the company also did laminating, which involved placing paper between sheets of laminate (phenolic) material. The company ceased performing the laminating process in 1985. The processing of DAIP-monomer, which was used in some painting operations and was mentioned in our previous response, did not begin until about 1981. Therefore it does not fall within the relevant time period of 1960 through 1977.

Manufacturing processes at CTS' Main Plant during the period from 1960 through 1977 included electroplating, which included zinc, silver, nickel, acid/tin, gold, and tin/lead plating, copper etching, metal punching and machining operations and the cleaning of parts.

Request No. 5:

Identify ingredients, raw materials or products used in Company operations or processes between January 1960 and December 1977.

Response to Request No. 5:

Raw materials used in the manufacturing operations at the Plastics Plant during the period from 1960 through 1977 would have included nylons, which were the materials used in the plastic injection molding process. The laminating process would have involved the following raw materials: Phenolic resin, methyl alcohol, ethyl alcohol and isopropyl alcohol. The raw materials used in the milling and painting processes, according to the best recollection of CTS' employees, were as follows:

carbon black
graphite

Ms. Susan Swales
May 9, 1989
Page 4

- silver flake
- acetone
- xylene
- ethyl acetate
- high flash naphtha
- diacetone alcohol
- methyl ethyl ketone
- methyl isobutyl acetone
- butyl carbitol acetate
- alkyd resin
- urea resin
- melamine resin
- nitrocellulose lacquer
- phenolic-silicone resin
- fluorocarbon resin
- silicone alkyd resin
- phenolic resin
- silicone resin
- epoxy resin

Trichloroethylene was used for the cleaning and degreasing of parts.

At CTS' Main Plant, the various electroplating operations described above would have required the use of sulfuric acid, hydrochloric acid, nitric acid, sodium hydroxide and sodium cyanide. Metals that were plated on included brass, nickel/silver, copper, steel and bronze. Raw materials used in copper etching included ferric chloride and cupric chloride. High flash naphtha was used in the metal machining process and acetone would have been used in any silk-screening that was done. Trichloroethylene and 1, 1, 1, trichloroethane would have been used in the cleaning and degreasing operations.

Request No. 6:

Identify the wastes generated from Company operations or processes other than those identified in Request No. 5.

Response to Request No. 6:

The processes identified in response to Request No. 5 would have generated the following wastes:

- Spent trichloroethylene and still bottoms
- Phenolic resin

Ms. Susan Swales
May 9, 1989
Page 5

Junk paints with acetone
Laminant scrap
Scrap metals
1,1,1, Trichloroethane
Liquid cupric chloride
Spent ferric chloride
Water soluble oil

We are not aware of any other wastes that were generated or of any other processes other than those identified in Response to Request No. 5 that would have generated additional wastes during the period from 1960 through 1977.

Request No. 7:

Identify all haulers of waste from your facility between January 1960 and December 1977.

Response to Request No. 7:

CTS has copies of the State of Indiana Stream Pollution Control Board "SPC-17 Liquid Waste Removal Record Industry Report" forms that were filed for the years 1976 and 1977 and the shipping orders and hauler permits that provide the supporting documentation for these reports. We have not been able to locate any documents related to waste haulers for the period prior to 1976.

Based on the recollections of persons who were consulted concerning this Request, many of the same haulers who are identified in the SPC-17 reports for 1976 and 1977 were also used in prior years for the transporting and disposal of hazardous wastes. For example, Westville Oil & Manufacturing, Inc., Westville, Indiana, was used for the hauling and disposal of waste oils from the early 1960's on through 1977. Scrap metals and paint wastes were picked up by Handy & Harman, 850 Third Avenue, New York NY 10022, for reclamation of precious metals. Handy & Harman was used for much of the relevant period until 1988. Scrap steel was sold to Elkhart Steel, Elkhart, Indiana. Inland Chemical Company (Van Waters & Rogers), 59865 Market Street, South Bend, Indiana 46613, picked up junk paint with acetone, spent trichloroethylene and spent 1,1,1 trichloroethane prior to 1976.

To the best of CTS' knowledge and belief, CTS did not use Himco Waste-Away Services, Inc. for the disposal of any hazardous wastes. Based upon the attached exhibits, CTS

Ms. Susan Swales
May 9, 1989
Page 6

contracted with Himco-Waste Away Services, Inc. for the disposal of non-hazardous plant refuse. Moreover, in many cases, wastes were bought from CTS for reclamation, such as by Westville Oil, which purchased our waste oils, and by Handy & Harman, which purchased our scrap metal and paint wastes for precious metal recovery. Aside from environmental concerns, it would not have made sense economically for CTS to dispose of these materials with Himco when they could be sold for reclamation.

The SPC-17 reports for 1976 and 1977 cover both the CTS Corporation Main Plant, located at 1142 W. Beardsley Avenue, Elkhart, Indiana 46514 (E.P.A. I.D. No. IND082864729) and the CTS Corporation Plastics Plant, located at 900 N. West Boulevard, Elkhart, Indiana 46514 (E.P.A. I.D. No. IND000806752). The following haulers of waste are identified in the SPC-17's and related shipping orders:

Westville Oil & Manufacturing, Inc.
Westville, IN

Conservation Chemical Company
Gary, IL

Inland Chemical Company
59865 Market Street
South Bend, IN 46613

Page 10

Exhibit XX - 1976 Indiana hauler permit for Indiana Waste Systems, Inc.

Exhibit YY - File note dated October 24, 1977 stating that CTS checked with the State of Indiana about various companies' hauler permits

The documents listed above were not previously produced because they do not relate to the Himco County Road 10 Landfill.

Request No. 8:

Provide all information and documents related to disposition of the wastes picked up from your facility.

Response to Request No. 8:

As previously indicated, CTS has little documentation relating to waste disposal for the period from 1960 through 1975. Exhibits A through XX above provide information related to waste haulers and disposers for 1976 and 1977.

We stated in our response to the Section 104(e) Request for Information that our search for records relevant to Himco Waste-Away Service, Inc. was continuing. We have located the following documents which pertain to the time period from January, 1960 through December, 1977:

Exhibit ZZ - Letter dated 10-4-77 from Himco to CTS indicating rate increase;

Exhibit AAA - Letter dated 6-23-77 from Himco to CTS indicating rate increase;

Exhibit BBB - Letter dated 6-23-77 from Himco to CTS - Main Plant and Plastics Plant - indicating rate increase;

Exhibit CCC - Letter dated 11-29-76 from Himco to CTS indicating rate increase;

Exhibit DDD - Letter dated 9-16-76 from Himco to CTS indicating rate increase;

Exhibit EEE - Letter dated 9-16-76 from Himco to CTS - Main Plant indicating rate increase;

Ms. Susan Swales
May 9, 1989
Page 11

Exhibit FFF - Letter dated 6-4-75 from Himco to CTS stating that Himco's employees are on strike;

Exhibit GGG - Letter dated 4-25-75 from Himco to CTS indicating rate increase (with notes in margin);

Exhibit HHH - Letter dated 4-25-75 from Himco to CTS indicating rate increase;

Exhibit III - Letter dated 8-3-73 from Himco to CTS - regarding charges for compactor at Plastics Plant;

Exhibit JJJ - Himco Solid Waste Disposal Contract dated January 1, 1973;

Exhibit KKK - Page 2 of what appears to be a contract between Himco and CTS with words "File March 1973" written at the top of the page (no other pages found);

Exhibit LLL - Letter dated 1-25-73 from CTS to Himco stating that the termination provision of the Solid Waste Disposal Contract would have to be changed in order to make it acceptable for signature by CTS;

Exhibit MMM - File Note dated 11-16-72 regarding Himco services;

Exhibit NNN - Letter dated 11-10-72 from Himco to CTS regarding estimate for equipment and service, with attachment showing number of loads picked up by Himco for January through October, 1972;

Exhibit OOO - Letter dated 6-19-72 from Himco to CTS regarding estimate for equipment and service with specifications for compactor and Himco brochure attached.

A letter dated 10-19-79 is also attached, as Exhibit PPP, because it contains some attachments relating to 1973.

These documents are all of the documents that CTS has been able to locate to date that may be responsive to this request. None of these documents refer to the Himco County Road 10 Landfill site, nor do they indicate that CTS' wastes were disposed of there or that CTS disposed of hazardous wastes with Himco. As we stated in response to your previous Request for Information, CTS continues to use Himco-Waste Away Services, Inc. for the disposal of non-hazardous plant refuse.

Ms. Susan Swales
May 9, 1989
Page 12

In addition to the documents produced, we have monthly statements for Himco's services dating back to 1980. These were not produced because they did not fall within the time period covered by this request (January, 1960 through December, 1977).

Request No. 9:

Did you dispose of any wastes on your property, between January 1960 and December 1977?

Response to Request No. 9:

No, to the best of CTS' knowledge and belief, no wastes were disposed of on CTS' property between January 1960 and December 1977. Please see our Response to Request No. 7, above, for information concerning haulers and disposers of wastes for the relevant period.

Please address all future correspondence concerning this site to the undersigned at the following address:

NOTICE

We have received the Company's Liquid Industrial Waste Hauler Permit Application for 1977. Please disregard paragraphs one and two of this letter.

Thank you

**INDIANAPOLIS 46206**

1330 West Michigan Street
633-5467

December 1, 1976

Stream Pollution Control Board Regulation SPC 17

Liquid Industrial Waste Hauler Permits

This is to advise you that Indiana Regulation SPC 17 requires that application for renewal of the Company's Liquid Industrial Waste Hauler Permit be made 60 days prior to expiration of said Permit.

Enclosed is an instruction sheet and a blank application for filing for a 1977 Industrial Waste Hauler Permit. It is requested that the completed application form and fee payment be submitted to this office within 20 days of receipt of this letter.

As you are aware, Indiana Regulation SPC 17 is in the process of being revised. In order to provide sufficient time to finalize the revised Regulation, it will be necessary to extend the Company's Permit beyond the December 31, 1976, expiration date. Consequently, you are hereby advised that the Company's 1976 Liquid Industrial Waste Hauler Permit will remain effective until March 31, 1977, provided a completed application form and fee payment is received by December 31, 1976.

If you have any questions regarding this matter, please call Mr. James Hunt at 317/633-5277.

Very truly yours,

A handwritten signature in cursive script that reads "Oral H. Hert".

Oral H. Hert
Technical Secretary

JHunt/hh

Indiana Stream Pollution Control Board
Authorization to Remove and Transport
Liquid Industrial Waste

In compliance with the provisions of the Indiana Stream Pollution Control Board Regulation SPC-17,

INDIANA WASTE SYSTEMS, INC.
P. O. Box 250
Portage, Indiana 46368

is authorized to remove and transport liquid industrial waste in accordance with requirements and conditions set forth in this permit.

The permit shall become effective on January 1, 1976.

This permit and the authorization to remove and transport liquid industrial waste shall expire at midnight, December 31, 1976. In order to receive authorization to continue operation beyond this date of expiration, the permittee shall submit such information and forms as are required by the Indiana Stream Pollution Control Board no later than 60 days prior to the date of expiration.

Signed this 11th day of December, 1975 for
the Indiana Stream Pollution Control Board.

Oral H. Hest
Technical Secretary

HIMCO WASTE-AWAY SERVICE, INC.

707 N. WILDWOOD AVENUE • ELKHART, INDIANA 46514

Dear Customer,

For the first time in the history of HIMCO WASTE-AWAY SERVICE, INC. the union employees have elected to strike against the company.

As a company, we have attempted to negotiate a new labor-management contract that was fair to all parties concerned. Unfortunately we have been unable to do so as of this date.

Effective immediately we will not be able to provide WASTE-AWAY service as we have in the past.

we sincerely hope that the strike action of the union employees will be for a short period of time and that we may again resume service to your residence.

We realize that you will be inconvenienced by our inability to provide service and suggest that the following be observed:

- A. Do not place any material for our pick up until notified that service has resumed.
- B. Take special precautions in storing your refuse so that health, fire, and safety hazards are not created.

Thank you for your consideration in this matter.

Sincerely,

HIMCO WASTE-AWAY SERVICE, INC.

Gentlemen,

In order to maintain our standard of efficient service it has become necessary to adjust our prices in relation to the increased cost of operations.

Over the past year we have experienced a continual rise in the cost of materials, labor, equipment and fuel. During this period there have been an increasing number of local, state, and federal regulations governing the transporting and disposal of solid waste material. These regulations have also substantially contributed to our increased cost of operations.

Effective May 1, 1975, the charge for waste-away service will be \$61.00 per load.

We appreciate your years of patronage and will continue to extend every effort to provide your business with the most efficient service available.

Sincerely,

Att: Mr James Zehendner

Dear Mr Zehendner,

On July 16, 1973 we placed into operation at the Plastic Division, a rebuilt stationary compactor model #20-150R. Attached to the compactor is a forty-five (45) cubic yard storage container.

The charge for the use of this compactor and related equipment will be \$141.00 per month for a contract period of thirty-six (36) months. After the expiration of the contract the monthly charge will be \$96.50.

Disposal charges for the refuse removed will be \$53.50 per load. This cost would be adjusted in the event of a change in disposal sites or an increase in disposal fees.

All other terms and conditions as stated in our current disposal contract would be applicable.

We request a purchase order showing location, charges, and that all other terms and conditions are agreeable.

Sincerely,
HIMCO WASTE-AWAY SERVICE, INC.

SOLID WASTE DISPOSAL CONTRACT

This agreement entered into this 1st day of January, 1973, by and between C.T.S. Corporation, having its principal place of business at 905 N. West Boulevard, Elkhart, Indiana, (hereinafter referred to as C.T.S.), and Himco Waste-Away Service, Inc., having its principal place of business at 707 North Wildwood Avenue, Elkhart, Indiana, (hereinafter referred to as Himco).

1. Himco agrees to perform a waste disposal service for C.T.S.. To perform this service Himco will furnish and maintain a stationary compactor, Model 4854-1, and a 45 cubic yard storage container. All equipment supplied by Himco shall comply with all applicable federal, state, county and city and agency laws, ordinances, rulings and regulations concerning safety and pollution. The storage container will be emptied at convenient times to be mutually agreed upon by the parties hereto. C.T.S. will fill the container through the use of the compactor machine and will hold and save Himco harmless from any liability or damage to itself or others caused by any caustic, toxic, radioactive, highly flammable, explosive or chemical product, material or substance harmful to human life and health placed in said container without notifying Himco prior to placing any such materials or substances in the compactor machine or the storage container. Himco agrees to hold and save C.T.S. harmless from any liability or damage to itself or others in connection with Himco's transportation or disposal of wastes pursuant to this contract and Himco shall comply with all applicable federal, state, county, city and agency laws, ordinances, regulations and rulings concerning the transportation and disposal of waste materials.

2. C.T.S. agrees that said equipment furnished by Himco shall be operated only by safe, careful and insurable operators who shall be agents and employees of C.T.S. and subject to its exclusive direction and control. C.T.S. agrees to save and hold Himco harmless for any personal injury or property damage occurred in or about the premises while said equipment is in the care and custody of C.T.S., and shall carry liability and property insurance covering C.T.S. evidenced by a Certificate (or Certificates) of Insurance to be furnished Himco.

3. C.T.S. agrees that inasmuch as said equipment shall be connected to electrical connections located at the premises of C.T.S. that electrical work which shall be necessary to be done in or about the premises shall be done at C.T.S.'s own cost and expense in connection with the specifications provided by Himco for the use of the equipment. The repair of any faulty installation of the electrical equipment or the repair thereof shall be the sole cost and expense of C.T.S. and failure of the equipment to operate in a proper manner by reason of any faulty electrical connection shall be C.T.S.'s responsibility at all times during the term of this agreement.

4. C.T.S. agrees to provide a suitable location for the placement of said equipment furnished by Himco and C.T.S. agrees to assume any costs in connection therewith.

5. Himco agrees that it shall maintain said equipment and repair the same at its own cost and expense

for proper use of C.T.S. provided that said use by C.T.S. is in the manner specified by Himco and that any abusive handling by C.T.S. or use of said equipment for purposes other than for which said equipment has been designed resulting in damage to said equipment, shall be repairable at the cost and expense of C.T.S.. Himco will furnish C.T.S. with operator's manual (or manuals) for said equipment for proper operation procedures. Himco agrees, however, that all labor and parts necessary to keep said equipment in good operating condition shall be the expense and obligation of Himco, with the exception noted. Himco reserves the right to exchange the unit for a comparable unit at any time for the purpose of maintenance or repair. Himco agrees that if said equipment malfunctions, Himco shall replace said equipment within a reasonable time with a comparable unit. If said equipment cannot promptly be placed in good operating condition, Himco agrees to provide such other substitute waste disposal service during the interim period as Himco deems satisfactory at no additional cost to C.T.S..

6. At all times title to said equipment shall be and remain the property of Himco and said equipment shall carry the name and address of Himco with a recitation on said equipment that the same is the property of Himco which C.T.S. shall at no time obliterate, obstruct or remove from said equipment.

7. Himco and C.T.S. agree that this contract will be in effect for sixty (60) months starting approximately January 1, 1973. The monthly charge for this service will be a basic cost of One Hundred Ninety-eight and 50/100 Dollars (\$198.50), plus Fifty-three and 50/100 Dollars (\$53.50) for each load removed from C.T.S.'s premises. For purposes of this agreement "each load removed" shall be construed to mean the removal of a storage container whether completely filled or not.

8. Service is to be performed during the hours of 7:00 A.M. to 5:00 P.M., Monday through Friday, and 7:00 A.M. to 11:00 A.M. on Saturdays. Service at other than the stated hours will be provided upon twenty-four (24) hour notice by C.T.S. to Himco and C.T.S. agrees to reimburse Himco for such service at time and a half for labor based on Himco's hourly rate then in effect.

9. C.T.S. will provide sufficient fire and extended coverage insurance to reimburse Himco for any loss to Himco's equipment located on its premises.

10. Cancellation of Contract:

(a) If Himco fails to perform the work as agreed, C.T.S. may provide either directly or by contract, such labor and materials as are necessary to complete the performance of the work under this contract. Himco shall be liable for the cost of such performance in excess of the price which C.T.S. would have paid Himco for performing the work up to a maximum of One Hundred and no/100 Dollars (\$100.00) per month for a maximum period of ninety (90) days at which time this agreement shall be considered to be cancelled by mutual agreement of the parties.

(b) If C.T.S. should discontinue its present manufacturing operations, C.T.S. agrees to give Himco a ninety (90) day notice of termination of this contract, and after such period all rights and obligations under this contract shall terminate.

(c) The failure of either party to perform its obligations under this contract because of fire, flood, strike or labor disturbance or any other cause beyond its control shall not constitute a failure to perform the work according to the provisions of this contract or a breach thereof. The phrase "other cause beyond its control" shall be construed to include any intervening or superseding local, state, or federal ordinance, law, or regulation so affecting Himco's present methods of waste removal and disposal or C.T.S.'s manufacturing methods and techniques as to render performance by either party, measured by such present methods, illegal or impracticable.

12. C.T.S. agrees that if during the term of this agreement Himco's waste disposal locations are moved to points at a greater distance than Himco's present waste disposal locations, or if the fees for Himco's use of waste disposal locations are increased, the per load service charges hereunder shall be renegotiated to include only the additional costs per load to Himco which would result from the happening of either eventuality. If no agreement is reached as a result of such negotiations within thirty (30) days this agreement may be terminated by either party without penalty except that C.T.S. agrees to pay Himco all sums due it hereunder as of date of termination and Himco agrees to remove its equipment at no cost to C.T.S..

13. This contract is made under and shall be construed according to the law of the State of Indiana.

Pres.

Attest:

By C. H. Himco, Jr.

File March 1973

that all labor and parts necessary to keep said equipment in good operating condition shall be the expense and obligation of Himco, with the exception noted. Himco reserves the right to exchange the unit for a comparable unit at any time for the purpose of maintenance or repair. Himco agrees that if said equipment malfunctions, Himco shall replace said equipment within a reasonable time with a comparable unit. If said equipment cannot promptly be placed in good operating condition, Himco agrees to provide such other substitute waste disposal service during the interim period as Himco deems satisfactory at no additional cost to CTS.

6. At all times title to said equipment shall be and remain the property of Himco and said equipment shall carry the name and address of Himco with a recitation on said equipment that the same is the property of Himco which CTS shall at no time obliterate, obstruct, or remove from said equipment.

7. Himco and CTS agree that this contract will be in effect for sixty (60) months starting approximately January 1, 1973. The monthly charge for this service will be a basic cost of One Hundred Ninety-eight and 50/100 Dollars (\$198.50), plus Fifty-three and 50/100 Dollars (\$53.50) for each load removed from CTS' premises. For purposes of this agreement "each load removed" shall be construed to mean the removal of a storage container whether completely filled or not.

8. Service is to be performed during the hours of 7:00 A.M. to 5:00 P.M., Monday through Friday, and 7:00 A.M. to 11:00 A.M. on Saturdays. Service at other than the stated hours will be provided upon twenty-four (24) hour notice by CTS to Himco and CTS agrees to reimburse Himco for such service at time and a half for labor based on Himco's hourly rate then in effect.

9. CTS will provide sufficient fire and extended coverage insurance to reimburse Himco for any loss to Himco's equipment located on its premises.

10. Cancellation of Contract;

(a) If CTS' manufacturing operations no longer require the solid waste disposal service provided by Himco under this contract, CTS may give Himco a ninety (90) day notice of termination of this contract and after such period all rights and obligations under this contract shall terminate. If CTS elects to terminate this contract as provided under this subparagraph (a) prior to the expiration of the term of this contract, CTS shall pay the sum of \$600.00 to Himco as a penalty for such termination.

(b) If CTS should discontinue its present manufacturing operations, CTS agrees to give Himco a ninety (90) day notice of termination of this contract, and after such period all rights and obligations under this contract shall terminate.

(c) The failure of either party to perform its obligations under this contract because of fire, flood, strike or labor disturbance or any other cause beyond its control shall not constitute a failure to perform the work according to the provisions of this contract or a breach thereof. The phrase "other cause beyond its control" shall be construed to include any intervening or superseding local, state, or federal ordinance, law or regulation so affecting Himco's present

Dear Mr. Himes:

In regard to our conversation of January 23, 1973, in order to make the Solid Waste Removal Contract acceptable to us, we require the following subparagraph be added to Paragraph 10 of the contract to provide for mutual termination of the contract:

- (d) Himco and CTS agree that this contract may be terminated by either party hereto at any time during the term hereof without additional future obligation or liability hereunder by giving a ninety (90) day notice of termination to such other party.

Yours very truly,

Himco Waste-Away Service

FILE NOTE

November 16, 1972

Meeting with Chuck and Steve Himes

We have agreed to accept Himco's proposal dated 11-10-72 with the understanding that after 60 months the agreement can be cancelled or renegotiated by either party.

It was also agreed that our present unit with a ram chamber capacity of 2-1/2 cubic yards with 22 yard storage container will be painted and refurbished then moved to the Plastic Division. At that time, all non-compactable containers at the Plastic Plant will be removed by Himco leaving only the one compaction unit. The only charge for this unit will be \$26.50 per load hauled.

Himco is to furnish the prints for the foundation requirements.

James J. Lehendner
Purchasing Manager

C T S Corporation
1142 West Beardsley Avenue
Elkhart, Indiana 46514

Attn: Mr. James Zehendner

Dear Mr. Zehendner,

The following is information that you requested concerning new and improved waste removal equipment at the main plant,

I have reviewed our past service experience with your company and have made a visual inspection of the type of refuse now being disposed of by the present equipment. I would recommend installation of a three (3) cubic yard compactor Model #4854-1 and a forty-five (45) cubic yard storage container.

We would supply the above equipment and related accessories for \$198.50 per month during a contract period of sixty (60) months. After the contract expiration the monthly service fee would be \$96.50 per month.

We would dispose of all the compacted waste for \$54.50 per load hauled. If during the term of the contract the disposal location is moved or the fees for using the disposal site are increased we would ask for an adjustment on the disposal charges only to cover any increase in cost.

Sincerely,

HIMCO WASTE-AWAY SERVICE, INC.

Att: Mr. Jim Zetner,

Dear Mr. Zetner,

The following is information requested concerning a means of waste removal offered by Himco Waste-Away Service, Inc.

We are now removing an average of 282 cubic yards of waste material from the plastics division. The average monthly charge for this amount of refuse removed would be \$352.00 per month.

Based on past monthly experience and on my own visual inspection I propose the installation of a stationary compactor machine which will provide your plant with a more expandable and economical means of waste removal. Himco would furnish and maintain the equipment as part of our service. Please see the enclosed brochure (A) by Himco Waste-Away Service, Inc. and Quality Steel for a more detailed description.

The equipment I recommend is a stationary compactor machine with a ram chamber capacity of 2½ cubic yards, Model #3654-1. This machine would operate on either 230 or 460 volts. Attached to the compactor would be a 22 yard storage container.

Himco Waste-Away Service, Inc. would furnish and maintain the stationary compactor, storage container and provide removal service once a week for \$337.00 per month. Extra loads would be charged at \$31.50 per load removed.

C T S would be responsible for providing proper electrical service, and a cement area to anchor the machine, at least 12' x 32' x 6".

If during the term of our service agreement, 38 months, with your plant the disposal areas are moved to a greater distance or the fees to use these areas is increased, we would at that time ask to re-negotiate our service charge to cover only the increased

WASTE AWAY

SERVICE

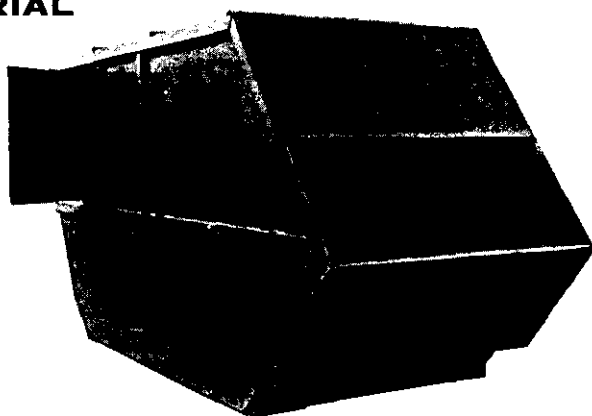

WASTE AWAY SERVICE, INC. 1000 N. 10TH AVE. SUITE 100 DENVER, CO 80202

COMMERCIAL OR LIGHT INDUSTRIAL WASTE-BIN

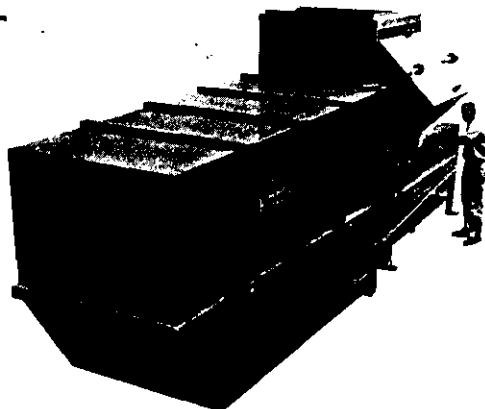

If you are now using trash cans and barrels to dispose of your rubbish, and they are continuously overflowing, visualize this all steel, enclosed Waste-Bin in place of that unsightly trash pile. Available in sizes from 1 to 8 cubic yards, this compact unit is easily nestled in an area approximately three by six feet, efficiently solving your refuse problem. No man-hours spent on dumping or rehandling — it is emptied on regularly scheduled days by one of our radio dispatched trucks.

MEDIUM INDUSTRIAL WASTE-TUB

For the industry that wants to minimize the cost of disposing of its industrial refuse, Waste-Tub is a safe and economical means of removal. It eliminates the non-productive use of men and equipment in removing refuse. A mountain of trash can be stored in an area only six by thirteen feet. Containers from 8 to 22 cubic yards are designed to reduce wasted space, fire hazards, and many inconveniences created by rubbish.

HEAVY INDUSTRIAL WASTE-PAC

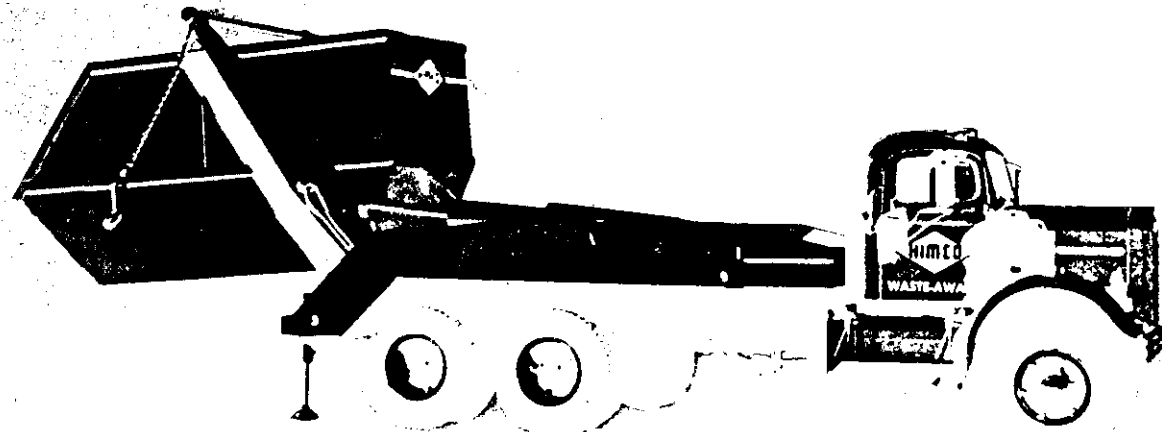

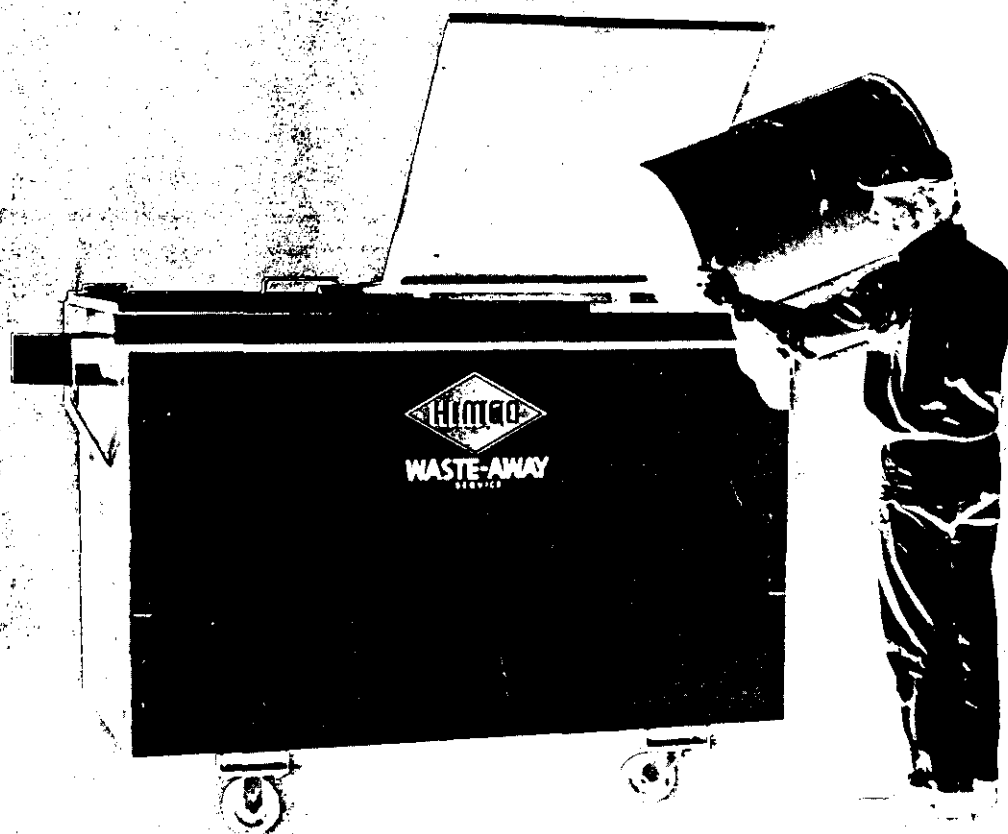

The most sophisticated system for refuse removal is this semi-automatic, stationary compactor and removable storage chamber. The hydraulically operated Waste-Pac is designed to handle the herculean task of removing the large volume of industrial waste that is being generated through production. Once inside the chamber all waste is sealed from sight, wind, pilferage, or a careless match. Authorized personnel can, by selecting the proper button, command a driving force of 60,000 pounds of pressure to destroy a cart-load of rejects or compact refuse from the day's production. Individual needs are met by tailoring the cubic yard capacities of the compactor and chamber to the desired volume needed. Hoppers designed for specialized intake or shop carts compatible with the compactor which elevates, dumping their contents, are available. An average outdoor space of ten by twenty-six feet is all that is needed to neatly solve a refuse removal problem.

Mrs. Katy Cutter
CTS Corporation
1124 West Beardsley Avenue
Elkhart, Indiana 46514

Dear Mrs. Cutter,

Upon review of our file on the waste equipment located at the CTS Main Plant, it was found that for the months of January 1978 and February 1978 we, in error, charged your plant the reduced rate of \$96.50 for the monthly service charge. This charge should have been \$198.50. The contract period was for 60 months which we started March 1, 1973 and should have ended February 28, 1978. I have enclosed the following to support the above.

1. Paragraphs from contract showing term of contract and effective date.
2. Letter stating when reduced charge would become effective.
3. Copy of March statement, 4/1/73, showing when a service charge was first added to monthly statement.
4. Copy of February statement, 3/1/73 showing no previous service charge.
5. Copy of December statement, 1/1/78, showing last time the \$198.50 service charge was added to the monthly statement.
6. Copy of January statement, 2/1/78, showing first time \$96.50 service was added to statement.

Would you please review these facts. If you find them to be correct please reimburse Himco Waste-Away Service, Inc. for the difference of \$204.00.

Sincerely,

HIMCO WASTE-AWAY SERVICE, INC.

SOLID WASTE DISPOSAL CONTRACT

This agreement entered into this 1st day of January, 1973, by and between CTS Corporation, having its principal place of business at 905 N. West Boulevard, Elkhart, Indiana, (hereinafter referred to as "CTS"), and Himco Waste-Away Service, Inc., having its principal place of business at 707 North Wildwood Avenue, Elkhart, Indiana, (hereinafter referred to as "Himco").

7. Himco and CTS agree that this contract will be in effect for sixty (60) months starting approximately January 1, 1973. The monthly charge for this service will be a basic cost of One Hundred Ninety-eight and 50/100 Dollars (\$198.50), plus Fifty-three and 50/100 Dollars (\$53.50) for each load removed from CTS' premises. For purposes of this agreement "each load removed" shall be construed to mean the removal of a storage container whether completely filled or not.

result of such negotiations within thirty (30) days this contract may be terminated by either party without penalty except that CTS agrees to pay Himco all sums due it hereunder as of date of termination and Himco agrees to remove its equipment at no cost to CTS.

12. This contract is made under and shall be construed according to the law of the State of Indiana.
